RE: OC Designer Source / ocdesignersource.com

To whom it may concern:

Michele Preston helped me design my home interior back in 2007 and she did a great job. When I found out that she had a company which helped design business interiors, I asked her and her partner Michele to help me design my new Talega Orthodontic office interior in 2008. OC Designer Source did a fantastic job guiding me in selecting awesome colors and great materials for my office and helped me save money in the meantime. I get many, many compliments on the design and interior of my office here in San Clemente! Feel free to stop by and see us anytime.

I highly recommend the design services of OC Designer Source!

Sincerely,

Frank J. Mogavero DDS MS

Diplomate of the American Board of Orthodontics
