# Bringing *Art* to your project

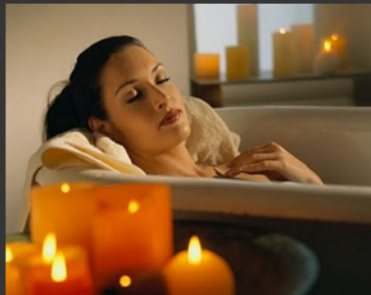

This project is designed to be a warm and inviting environment as well as restore and sustain well-being, going beyond a comfortable place to stay to create a high function living environment.

Art is a major factor of this experience, helping to set a sense of thoughtful, supportive aesthetic that uplifts and inspires the customer. It creates an emotional connection and point of interaction for them to feel relaxed and engaged. Selecting the right art is key to bringing everything together and creating a polished, finished design.

# Vacationers

Orange County is an international destination. Excited vacationers fly here from all over the world. They want a comfortable place to stay where they can relax after a long day of exploring and sightseeing.

# Long Term Residents

We all experience difficulties. In our time of need, it is a relief to know that we have a home away from home -- a comfortable environment where we can get back on our feet and continue life as usual.

# Travelers on Business

A large number of businessmen and women are career travelers, going where their work requires them to go. They need an intuitive environment that doubles as a work space as well as a home space.
